## Professional Summary

UI/UX designer and full-stack developer with 3+ years creating visually appealing, user-friendly interfaces. Proficient in both front-end and back-end technologies, I have experience delivering fully functional websites and applications. I've worked on various software projects and have a solid understanding of computer systems and networking. I am committed to continuous learning and staying updated on the latest design trends and technologies, ensuring innovative and efficient solutions. Open to contract positions.
